

GT 1000 is a one credit hour, letter-graded course designed to help incoming students transition successfully to Georgia Tech. Four section types of GT 1000 are offered:

- General Sections
- Major-specific Sections
- Program Sections
- Cohort Sections

All sections follow a core curriculum that focuses on the transition of new students to Georgia Tech and prepares them for the academic and career opportunities that are available now and in the future.

General Sections

All general sections of GT 1000 include the core curriculum and GT 1000 learning outcomes and goals. General sections have an interdisciplinary focus. All first-year students can register for a general section of GT 1000. General sections are taught by faculty and staff from various programs, departments, and offices across Georgia Tech.

General sections are open to **all first-year students**.

Major-Specific Sections

Major-specific sections include the core curriculum and GT 1000 learning outcomes and goals. Major-specific sections also focus on the academic and professional transition to that major or academic field. All major-specific sections are taught by faculty or advisors in the specified college or school.

These sections are **restricted to students who have declared the specified major(s)**.

| Major-Specific Sections | | | | | | | | | |
